

Brief CV

Name	Chong Fai Kait	中文名	張慧潔	
Gender	Female	Title (Pro./Dr.)	Associate Professor	
Position (President...)	-	Country	Malaysia	
University/ Department	Universiti Teknologi PETRONAS			
Personal Website	-			
Research Area	Photocatalysts for environmental applications			

Brief introduction of your research experience:

Dr. Chong Fai Kait is an Associate Professor at Universiti Teknologi PETRONAS. She graduated with B.Sc. (Hons) in Industrial Chemistry from Universiti Putra Malaysia in 1993, specializing in synthesis, characterization and application of copper(II)-glycerol complex for her final year project. In 1998, she received her PhD from University of Dundee, Scotland in the area of naphtha reforming. Her main research interests are in photocatalysis and its integration with ionic liquids or other techniques for sustainable environmental applications; such as in desulfurization of diesel, wastewater treatment and air pollution control.
