

Brief CV

Name	Jun Hieng Kiat	中文名	-	
Gender	Male	Title (Pro./Dr.)	Dr.	
Position (President...)	Assistant Professor	Country	Malaysia	
University/ Department	Department of Mechanical and Material Engineering, Universiti Tunku Abdul Rahman			
Personal Website	http://www.utar.edu.my/cv/index.jsp?cv=iunhk			PHOTO
Research Area	Renewable energy			

Brief introduction of your research experience:

Dr. Jun Hieng Kiat obtained an M.Eng.Sci. in 2007 and a PhD in 2014, both from the University of Malaya. He now works at Universiti Tunku Abdul Rahman, Malaysia, as an Assistant Professor in the Department of Material and Mechanical Engineering. His research interest is in the field of renewable energy, specifically in the area of nanostructured materials for solar cells. Currently, he conducts experimental research on nano-sized materials for solar cells and fuel cells. His main interests are dye- and quantum dot-sensitized solar cells, organic solar cells, perovskite solar cells, electrolyte characterization, and electrochemical impedance spectroscopy.
