

Brief CV

Name	UDAY M. BASHEER Al-NAIB	中文名		
Gender	Male	Title (Pro./Dr.)	Dr. PhD/PostDoc Mat. Eng./ProfGradIM MM/F.I.M.M.	
Position (President...)	Senior Lecturer	Country	Malaysia	
University/ Department	Faculty of Mechanical Engineering UTM Centre For Low Carbon Transport, In Cooperation With Imperial College London, Institute For Vehicle Systems and Engineering			
Personal Website	mech.utm.my/uday/			
Research Area	Materials Engineering			

Brief introduction of your research experience:

Dr. Uday M. Basheer Al-Naib (PhD/PostDoc Mat. Eng./ProfGradIMMM/F.I.M.M.) is Senior Lecturer at Universiti Teknologi Malaysia (UTM). He held a postdoctoral research associate position at Universiti Sains Malaysia (USM) between 2013 and 2014. He received his PhD in Materials Engineering from the Universiti Sains Malaysia (USM). He obtained his B.S. and M.S. in Chemical Engineering from University of Baghdad and University of Technology Iraq respectively. He has over 30 years of academic and practical experiences in the Materials and Chemical Engineering research. He is interested in different materials engineering fields such as ceramic & metal composites; advanced ceramic; metal-ceramic joining; thermoelectric ceramic; energy conversion; metal alloy; materials characterizations; powder technology; nanotechnology; nano-ceramics; mechanical testing; friction welding; thermal properties; fractography; high temperature insulators; porous ceramics; thermal coating; high temperature materials; ceramic anti-chemical corrosion; grinding wheels; recycling materials
